25X1

1. The shipyards in Melnik (O 51/F 71) were taken over by CKD (Ceskomoravska Kolben Danek) in April and May 1952 and are now operating under military supervision. The buildings of a former aircraft factory and the former Perun washing machine factory have been joined to the shipyards and new machinery is being installed in both.
2. The shipyards were formerly used for carrying out repairs on dredges, barges and machinery for the maintenance of ports. Since being taken over by CKD the shipyards have been building pontoons and small motor boats for military use.
3. The shipyards, the former aircraft factory, and the former Perun factory will now work only on military orders. They will be working on large orders for the USSR, building parts of submarines which will be transported to coastal shipyards for assembling.
